foreword

The white screen is ready for inauguration of the 3rd International Colour Salon and I am fortunate enough of welcoming you all on this glorious occasion.

Before projection of colourful creation of the eminent artists around the world I would request you to lend me a few moments from your valuable time to say something. The present political turmoil and economic tension throughout the world could not scratch the colourful celuloid canvas rather the artists are enthusiast of having a fair look through their camera-eyes. The colourful composition of modern artists are more philosophical than their technical superiority though they have traversed all the avenues of the photographic world. In the present din and bustle the meditative approach and technical dexterity lifted their creation to the realm of beauty.

This year we have an encouraging response and received 714 numbers of slides from 180 entrants of 26 countries including the new guests from U.S.S.R., Argentina, Portugal, Guatemala etc. of which 215 numbers of slides have been selected for projection but the Indian entrants have discouraged us. The acceptance of Indian entries this year has dwindled to a great extent. Yet I am glad to congratulate Mr. Samar Banerjee, the first Indian artist so far in our International Colour Slide Exhibition for his plaque winning creation "Mimosa".

Our Salon Committee adopted most modern method of selecting the slides and strictly followed the P.S.A. & F.I.P. recommendation practice.

In this occasion I take the opportunity to express our sincere gratitude to Messrs. B. K. Sinha, Benu Sen, A.R.P.S., E.F.I.A.P. and Subrato Ray A.R.P.S., E.F.I.A.P. for their kindness in selecting the slides.

Once again I am glad to renew our thanks to the entrants, donors, patrons, advertisers, press and public and the authority of Howrah Medical Club.

In conclusion, I thank the Salon Committee and general members whose endeavours and efforts have shaped this salon a great success.

Gobinda Chandra China

President

March 6, 1971.
