Sign your own peace treaty

Here at Santiniketan

Far from the madding crowd.
To peace and serenity. Where nature
is still nature. Pure. Unspoilt. Way
out of this world.

Yes, come to Tagore's Santiniketan for
a happy, peaceful break. See his
manuscripts...paintings...the Nobel
prize...and his 'niketan'.

And between Uttarayan, Kalabhavana
and Ram Kinkar's sculptures that
abound everywhere and the festivals,
dance and drama, you'd know
why Santiniketan is a meaningful
synthesis between modernity and the
tradition of India.

Come, discover Santiniketan for

yourself. And do please make your
stay pleasant by staying either at the
Tourist Lodge or Tourist Cottages.

For bookings, please contact
the Reservation Counter, West Bengal
Tourism Development Corporation,
3/2, Benoy-Badal-Dinesh Bagh (East),
Calcutta-700 001 or the Manager,
Tourist Lodge.

For further information please contact :

Kodak appreciates beauty too

Ever wondered why the world's greatest professional photographers choose Kodak materials?

So they can concentrate on creativity. Add interesting effects to pictures. And give full reign to their imagination.

Because Kodak films, chemicals and processing facilities add that extra finish to your photography.

You can take Kodak dependability for granted. Because we don't.

Part of your life
for 60 years
1913-1973

This salon, a window to the world, shows sights as the colours split into forms on the screen. Slides flit by, hues and shapes change, and a long scale of emotions plays tunelessly in our mind. This salon telescopes the far world to us in this town. We have the feel of things and experience to live by. Spring for us is storing of joy every year. We count the days down to the tick of hours.

In this 9th year of the salon judges have chosen 203 slides of 135 artists out of 1249 entries by 326 competitors of 29 countries. This is a good pick from world's famed artists.

A salon like this, you know, tries to put up the trends of photo art in a mini scale. But it does not always succeed keeping a steady standard. There are ups and downs. Fortunately, for some years we chance to see great creations which shine like cut gems and affect photographers round the world. But the next year may fetch packetful of dead stereotypes. All seem die-cast like coins. Through rise and fall advances take place in every field. This salon too in its modest way moves and halts in its experiments with art. Viewers aware of this trait of human progress never sneer at attempts, though shocked they are often. So we keep trying to know the mainstream.

In appreciation of our able organisation of the salon and outlook for promoting photography, Photographic Society of America have contributed two gold medals this year too as they have been doing since 1971. This honour urges us to improve matters still further.

But pains taken to earn this honour are not wholly ours. We are immensely thankful to the eminent judges, Sri B K Sinha, Sri Benu Sen, FRPS EFIAP, FNPAS and Sri Sunil Hazra for the intensive care they have taken in selecting the slides. Sri Hazra had to sit for Sri Subroto Ray ARPS, EFIAP, FRSA as Sri Ray, beset with one of the sad moments of his life, could not make himself available to us like other years.

We are profoundly grateful to the authorities of Howrah Medical Club, the Metropolitan Press, Akshbani, Ghosal Bagan Sangha and hosts of artists, clubs, patrons and advertisers who have smilingly supported us to make this salon successful.

Above all, our best compliments go to Sreemati Rita Dey for her voice in the commentary and to all members of the society for their dedicated service.

Always specify Agfa-Gevaert papers for your prints and enlargements. Remember, even the most striking photograph can be completely dulled by using inferior photo papers. Rely on Agfa-Gevaert photo papers for lively pictures. For brightness. For vivid contrast.

Lupex—The contact paper for perfect prints from any negatives.

Brovira—An enlarging paper which shows all the beauty of a photograph hidden in small size prints.

INDU is film.

It's about time we came out in the open and said so. Because, for the last three years, INDU's been making the entire range of photographic products.

And HPF is much more than the only company in India to manufacture film: it is one of just six companies in the world which has the sophisticated technology to make photo-sensitized film.

What makes INDU so special is this: there are only six countries in the world which manufacture their own film. And, India, thanks to INDU, is one of them.

INDU has slowly but steadily absorbed technology and know-how from its foreign collaborators, and is today making photo film to international standards.

INDU—the leader with the leaders:

Top professional photographers, film-makers, cinematographers; and radiologists turn to INDU. They know that, today, the name INDU is synonymous with quality.

The INDU range—your proof of quality:

Photo. Cine. X-ray. INDU Roll Film. INDU Bromide

Paper. INDU Cine Positive. INDU Cine Sound Negative. INDU X-ray. INDU Polyester Base X-ray. INDU Medium Contrast Graphic Arts Film. INDU Diapositive. INDU Document Copying Paper.

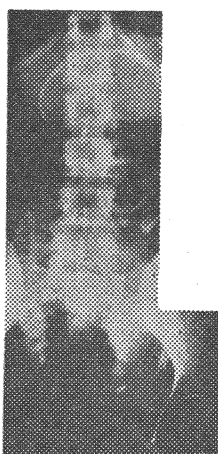

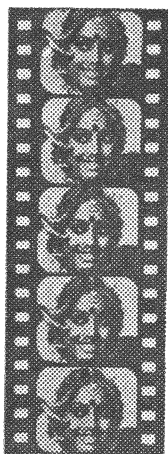

Each product offering you quality you can trust — because it's from INDU.

Yes, today INDU can make it on its own — and make it better. Which is why we say with confidence: **INDU IS FILM.**

Our Priorities

An enterprise matures and acquires new refinements by recognising the priorities thrown up by the environment. And each enterprise attempts to fulfil them according to its own light.

Development of technology is high on our list. Our success in this area, though modest, will endure for some time. New specifications of steels we have developed, new products we have introduced have led to improved efficiency in many sectors of industry. Our people who have worked for these innovations on the drawing boards, in the laboratories and toolrooms, on the shop floors and in the testing rooms have developed their engineering skills in the process. These skills are now part of the overall human talent available in the country.

This talent explains the success of our products in overseas markets.

When earning foreign exchange is a justly celebrated priority, we have more than doubled our exports this year. For we believe that as the needs of a growing nation multiply, so do its priorities. We can fulfil only those that respond to the benefits of our products. For our products alone sustain our professional reckoning.
