On the advent of Spring before Nature unfurls the panorama of fantasy of colours over the face of the earth, The Society of Photographers, as is customary, feels pleasure in presenting the Thirteenth International Colour Salon. In this way it tries to provide an opportunity to all the lovers of Photographic Art to see and enjoy how far the artists in their respective entries have been successful in the presentation of their artistic sense. In a word it attempts to gauge how far this particular aesthetic art has been able to raise its standard in its ever onward march to attain the ideal of perfection in the countries all over the world.

It is a matter of great satisfaction for us that the entries are on the increase every year and it speaks automatically about the growing reputation of the Society before the entrants and the members as well. It is to be noted that this year 332 artists from 30 participating countries are competing, amongst whom there are many distinguished artists of fame and thus the entries have come up to 1298 to make the work of selection more exciting and interesting at the same time. Out of the total number of 1298 slides only 231 have crossed the bar of qualifying marks for acceptance this year.

The judges, Sri Benu Sen, Sri Subroto Ray and Sri Sunil Hazra had to take additional pains to judge once again a good number of entries that reached this salon late owing to some postal troubles. However, the entries have been judged as late entries and we deeply regret for the inconvenience so caused.

With pleasure we announce that to add to the laurels of the society, we have recognition of FIAP to our credit from this year.

To hold an international salon of such fame without the heart-felt sense of co-operation and service from many is rather impossible. The society as such owes a lot to the honourable judges, members, friends, organisations and well wishers without whose help the question of success would have been a matter of debate. The society also conveys its thanks to the entrants, donors, advertisers, patrons and authorities of Howrah Medical Club, the Newspapers and the Magazines, Akashvani, Calcutta Duradarshan Kendra, Ghoshal Bagan Sangha and others for their counsel and sincere co-operation and to Sri Gautam Dey for lending his graceful voice to make the salon a grand success. I shall be morally unjust and failing in my duties if I do not convey my thanks to the guests and spectators who have spent their valuable time to grace the occasion.

Gobinda Chandra China

When a rolling stone gathers moss

Ever since man invented the wheel, things began to move. Centuries later John Boyd Dunlop invented the pneumatic tyre and wheels moved faster and better. And then Dunlop India brought tyre manufacture to India in a big way. Since then Dunlop has led the way. With a progressive record of firsts in the service of India's transport, industry, agriculture, defence and exports.

 **DUNLOP** leads the way
