Reyrolle Burn SWITCHGEAR

This is where your production and profit start

Reyrolle Burn Switchgear
The strategic starting point for the industry's effective power distribution and control.

Seventeen years ago, when Reyrolle of U.K., pioneers in switchgear technology joined hands with Burn & Co. of India, a unique collaboration took place. And Reyrolle Burn was born. Internationally acclaimed expertise and nationally acknowledged experience came under one roof. Ever since, Reyrolle Burn has been catering to the needs of leading private and public sectors like mining, fertilizer, steel etc. with its versatile range of sophisticated and reliable switchgear and allied equipment.

Though Reyrolle Burn started by manufacturing switchgears, they have successfully moved into other spheres of operations like designing, erection, installation, testing and commissioning of complete Electrical sub-stations upto 132 KV, on a turn-key basis and also undertake complete electrification of new Industrial projects.

Today, Reyrolle Burn is the only answer to discerning buyers looking for technologically superior, time-tested, reliable equipment.

REYROLLE BURN LTD.

c|o|u|r|t|e|s|y

This 15th. year fulfills a noble purpose of holding the salon. We have been always at pains to bring Indian photography at pace with the advanced countries. This year an Indian artist Sri Shibu Dan has won the P.S.A. gold medal in the general section. His slide shows a tribal girl waiting at the doorstep of her mud hut. Such scene lies strewn everywhere but Sri Dan with a pair of seeing eyes has raised the subject to an uncompromising international standard. His treatment is simple and within his means yet has not lost the Indian-ness of the scene. We shall be looking for more of the kind of Sri Dan.

This 15th Salon registers 1200 slides of 302 artists from 29 countries of the world. There are ventures like Mr. Wellington Lee of U.S.A. who still love to patronise us and many new-comers participating for the first time. Expectedly, therefore, the standard of production will be uneven. But the standard of our judges Sri Benu Sen, MFIAP, FRPS and Sri Subroto Ray, EFIAP, ARPS remains as austere as ever.

Number of Indian entries are on the increase but the neighbouring countries like Pakistan, Bangladesh, Burma, Sree Lanka, Nepal are yet to respond in a big way. Only by comparing with the highest standard of the world can we aspire to make grades. Surely we do not possess the technical means of the advanced countries. Still we have scenes of pristine beauty round about us and we can work wonders if we care to cultivate the art of seeing.

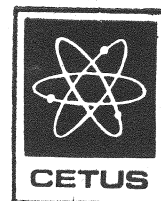

The society conveys its heartfelt thanks to the entrants, donors, advertisers, patrons, the press and the authorities of Howrah Medical Club, Calcutta Dooradarshan Kendra. Sri Peary Mohan Khan and others for their counsel and sincere co-operation and to Smt. Nobina Roy for lending her graceful voice to make the Salon a grand success.

At last to my society members who have been especially painstaking, and to you all for the privileges of welcoming, I stand in gratitude.

SUNIL HAZRA
President

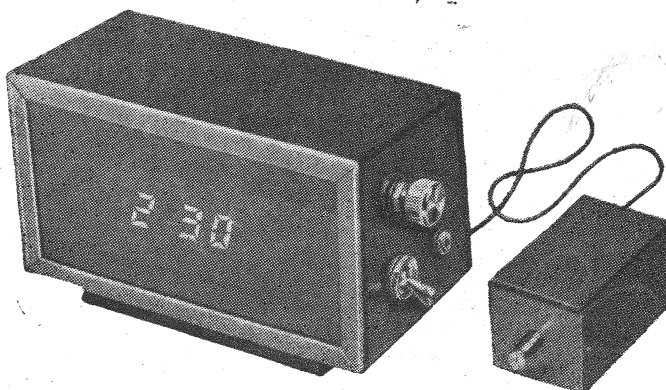

19th February 1983

Develop And Enlarge Colour Photos With Ultimate Precision, Confidence And Economy !! ... With These High Reliability Electronic Products Designed In Canada & Manufactured In India ... By CETUS.

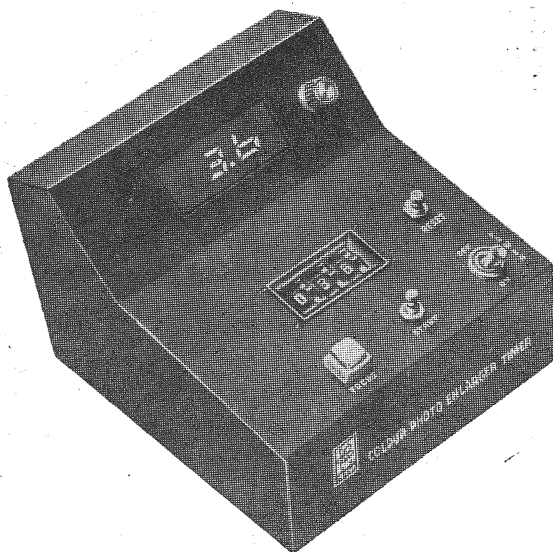

FEATURES

- 15 mm LED display with brightness control.
- 3.58 MHz crystal time base.
- Display upto 99 mins. 59 secs.
- 10 sec. alarms at 30 sec. intervals.
- Battery back-up provision.
- Power consumption 5 W/230 V AC.

**Colour Photo Process Timer,
Model PT 83**

FEATURES

- 15 mm LED display with brightness control.
- 3.58 MHz crystal time base.
- Exposure light switch.
- Programmable time 0 - 99.9 secs.

Blending products,
processes and technology
with people;
their needs; and the
environment: at GW,
these are the priorities that
define our purpose.

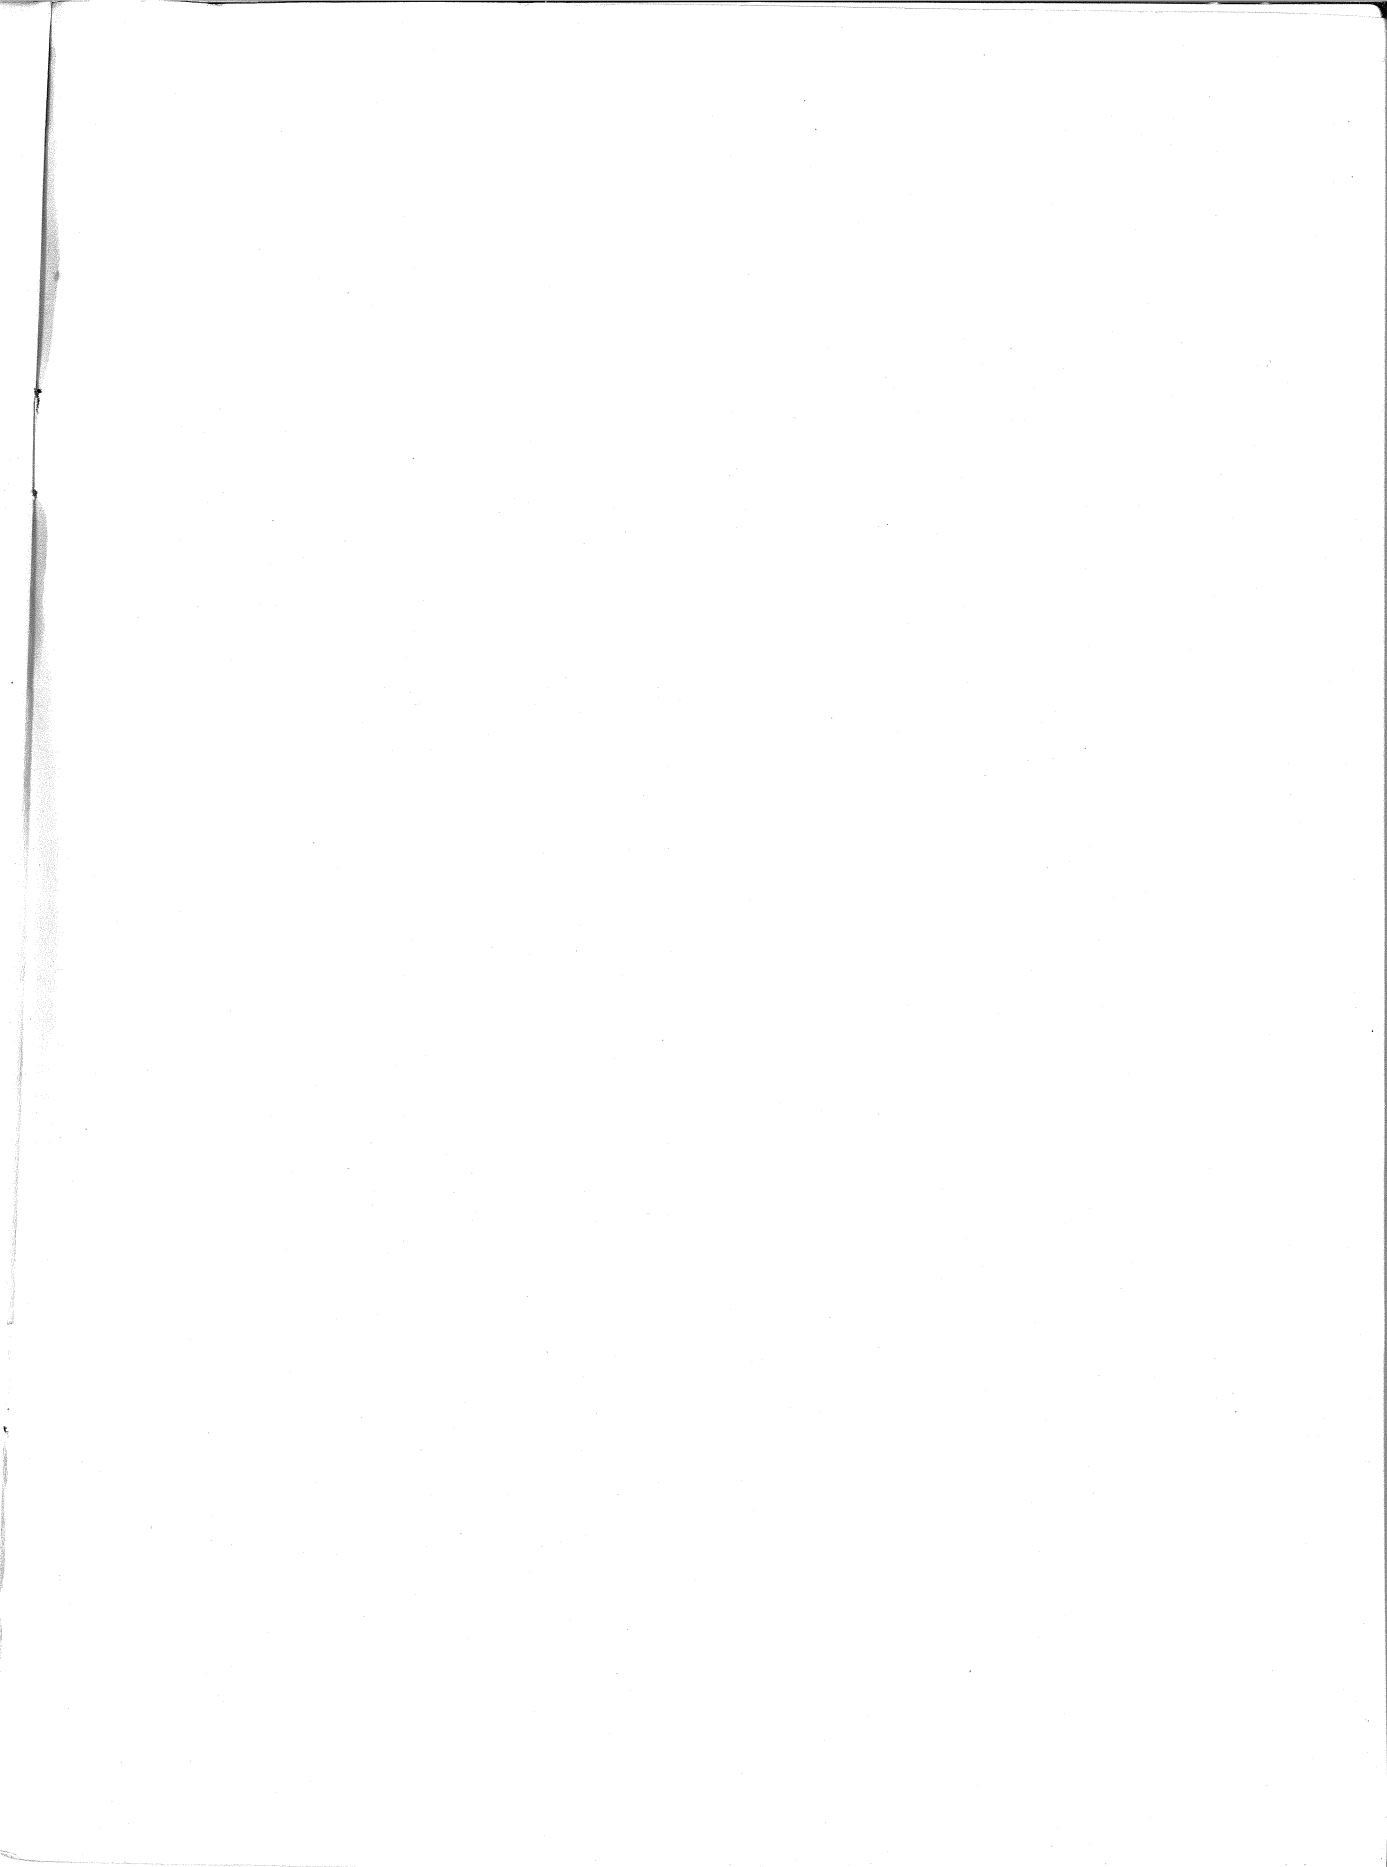

Our range of
products have evolved out
of these needs,
and today constitute vital
intermediates, integral to
almost every area
of industry and life. In
India, and even overseas.

**Our speciality:
fusing technology
with needs**
